SUBJECT INDEX

Entries with pages in Roman type appear in this volume; *entries with data in Italic type appear in Pediatrics in Review.*

Abdominal masses, newborn, *PIR11:172, 89–90*
Abuse, *see* Child abuse; Sexual abuse
Acarboxyprothrombin, vitamin K status evaluation, newborn, 90
Accident, all-terrain vehicles, 694
Acellular pertussis vaccine, booster dose, adverse reactions, 62
Acidosis, dehydration in infancy, *PIR11:139, 89–90*
Acquired immunodeficiency syndrome
  adolescents and, 36
  educational program, adolescents, 986
  infant, cytomegalovirus retinitis in, 683
  thrombocytopenia with (letter), 401
  United States Department of Health and Human Services Secretary's Work Group on, 547
  worry in suburbia (letter), 1122
Adenovirus infection, enteric, diarrhea and, 219
Adolescents
  AIDS education program, 986
  AIDS in New York City minority population, 36
  athletes, amenorrhea and (committee statement), 394
  drug screening (committee statement), 396
  early self-care, substance abuse among, 556
  economically disadvantaged, access to health care, 1056
  girls, sun exposure, melanoma associated with, 199
  growth curves and height estimates, *PIR11:70 (abs), 89–90*
  health insurance status, 699, 709
  hematuria, *PIR11:101, 89–90*
  mitral valve prolapse, 290
  mothers, drug abuse among, 144
  screening for pharyngeal gonorrhea, 623
  sickle cell disease mortality, 500
  sports injuries, 446
  suicide attempts, risk factors for, 762
Adoption, international, cytomegalovirus and (letter), 937
Airway
  injury, conventional mechanical ventilation, 304
  upper, measurements during inspiration and expiration, infant, 73
Albumin, plasma, infants fed human milk and soy-based formula, 1105
Alcohol, prenatal exposure, infant growth and, 536
Allergy
  cow's milk, colic or (letter), 938
  milk, persistent sleeplessness and, 595
Ambulatory care, general pediatric clinic practice management, 98
Amenorrhea, adolescent athletes (committee statement), 394
American Academy of Pediatrics
  Committee statements
    Committee on Adolescence: Health care for children and adolescents in detention centers, jails, lockups, and other court-sponsored residential facilities, 1118
    Committee on Adolescence, Committee on Bioethics, and Provisional Committee on Substance Abuse: Screening for drugs of abuse in children and adolescents, 396
    Committee on Community Health Services: Health care for children of migrant families, 739
    Committee on Drugs: Transfer of drugs and other chemicals into human milk, 924
    Committee on Genetics: Prenatal diagnosis for pediatricians, 741
    Committee on Infectious Diseases: *Haemophilus influenzae* type b conjugate vaccines: Update, 386
    Committee on Infectious Diseases: Measles: Reassessment of the current immunization policy, 1110
    Committee on Nutrition: Iron-fortified infant formulas, 1114
    Committee on Sports Medicine and Committee on School Health: Organized athletics for preadolescent children, 583
    Committee on Sports Medicine: Amenorrhea in adolescent athletes, 394
    Section on Allergy and Immunology; Section on Diseases of the Chest: Exercise and the asthmatic child, 392
    Task Force on Circumcision: Report of task force on circumcision, 388
American Board of Pediatrics
  candidates certified, 193, 592, 1126
  Guidelines for combined internal medicine-pediatrics residency training programs, 190
Anatomically correct dolls, interview for suspected sexual abuse, 900
Anemia
  iron deficiency, infant psychomotor development and, 7
  mild viral infection, 851
  sickle cell, *see* Sickle cell disease
Anesthesia, topical skin, lumbar punctures and, 281
Anorexia nervosa, diet behavior, eating attitudes and, 482
Anti-human immunodeficiency virus antibodies, neonatal prevalence (letter), 745
Antimicrobial drugs, otitis media, *PIR11:133, 89–90*
Anxiety, catecholamines and biofeedback, mitral valve prolapse, 290
Apnea
  need for transfusion and, premature infants, 412
  periodic breathing, preterm infant, 785
Arterial thrombosis, cocaine exposed neonate, fibrinolytic treatment, 735
Aspartame, overdosage (letter), 750
Asphyxia, airway injury, during conventional mechanical ventilation, 304
Aspiration, near fatal, candy pacifier, 126
Asthma
  cardiovascular fitness, psychologic functioning and, 460
  exercise and (committee statement), 392
  hospitalization, 111
  long-term therapy, terbutaline and theophylline, 119
  passive smoking and, 451
  predisposing factors, *PIR11:100 (abs), 89–90*
Athletics, preadolescents (committee statement), 583
Attention deficit disorder
  depression and (letter), 748
  methylphenidate effects, overt behavior in hyperactivity, 648
Autoimmune neutropenia, *PIR11:125 (abs), 89–90*
Axillary artery, monitoring, 273

Bacillus, infection, treatment (letter), 403

Bacteremia, coagulase-negative staphylococci, low birth weight neonates, 977
Bacterial infection, blood culture in diagnosis of fever, 18
Bacteriuria, untreated, asymptomatic girls with renal scarring, 964
Battered women, mothers of abused children, 531
Behavior
bedtime tantrums, 756
children as pedestrians, parental attitudes and practices, 1017
crying and fussing, feeding and temperament effects, 514
distress, cancer patients receiving chemotherapy, 103
illness, child-initiated care system, 845
risk, AIDS in New York City minority population, 36
Biliary atresia, *PIR11:57, 89–90*
neonate, *PIR11:79, 89–90*
Bilirubin, production, targeting heme oxygenase inhibitors to the spleen and, 1091
Biofeedback, catecholamines and anxiety, mitral valve prolapse, 290
Birth weight
low
body proportionality and head and length sparing in growth retardation, 717
coagulase-negative staphylococcal bacteremia in, 977
intrauterine growth retardation and, Filipino infants, 613
revising diagnosis-related groups for neonates, 49
twins, sudden infant death syndrome in, 1038
very low
effectiveness of care (commentary), 912
intraventricular hemorrhage, 797
skin to skin contact with mother, *PIR11:77 (abs), 89–90*
urinary excretion of oxalate, 860
Bladder, neurogenic, intermittent catheterization, infants, 78
Blindness
retinopathy of prematurity, 442
traumatic monocular, carotid injuries and, 128
Blood culture, diagnostic management of young febrile children, 18
Blood flow
cerebral
brain death in newborn, 429
velocity changes after indomethacin, preterm infant, 802
Blood pressure
axillary arterial monitoring, 273
high, adult, childhood risk factors for, 633
Body proportionality, head and length sparing and, growth-retarded neonates, 717
Bone marrow, transplants (letter), 195
Bradycardia, need for transfusion and, premature infants, 412
Brain death, newborn, 429
Brainstem, ischemia, prenatal, moebius sequence and, 570
Breast-feeding
crying and fussing behavior and, 514
intentions and practice, Hispanic mothers in Southern California, 626
overview, *PIR11:163, 89–90*
termination of, jaundice and, 773
vitamin K status and, infant, 90
Bronchopulmonary dysplasia
neck and body position effects, infant, 670
movement disorder with, premature infants, 215
pulmonary function tests and fluid balance, neonates, 1072

Calciuria, *PIR11:21, 89–90*
Calculus, renal, *PIR11:21, 89–90*
Callosotomy, intractable epilepsy, 886
Cancer
chemotherapy patients, behavioral distress, 103
childhood, long-term survivors, 912
Cantrell's pentralogy, chest wall deformities, *PIR11:147, 89–90*
Cardiology
preventive
routine cholesterol surveillance, 751
Cardiopulmonary resuscitation, parents learning of, congenital heart disease and dysrhythmias, 1102
Cardiorespiratory dysfunction, Marfan syndrome, 83
Cardiovascular fitness, psychologic functioning and, asthma, 460
Carnitine palmityl transferase deficiency, rhabdomyolysis following influenza in, 312
Carotid artery, traumatic injuries, traumatic monocular blindness and, 128
Catecholamines, anxiety and biofeedback, mitral valve prolapse, 290
Catheterization
axillary arterial monitoring, 273
intermittent, neurogenic bladder, infant, 78
Caustic ingestion, detergent, serious respiratory consequences of, 472
Cefuroxime, treatment, meningitis, 132
Central nervous system, myelination detection, preterm infants, 407
Cerebral palsy, growth with (letter), 587
Cervical spine, fractures, forward-facing car seats, 348
Chemotherapy, behavior distress in patients, 103
Child abuse
legally proven cases, physical evidence in, 1022
mothers of, 531
Chlorambucil, linear growth, nephrotic syndrome and, 495
Cholesterol
screening, 969
routine surveillance, 751
Chondrodysplasia, chest wall deformities, *PIR11:147, 89–90*
Chronic illness, management of, community physician, 465
Circumcision, report of task force (committee statement), 388
Coagulation factors, vitamin K dependent, preterm infants, 1045
Cocaine
abuse
adolescent mothers, 144
maternal, effects on newborn infant, 205
environmentally acquired, generalized seizures and, infant, 1100
neonate exposed to, arterial thrombosis and hypertension, fibrinolytic treatment of, 735
Colic
cow's milk allergy or (letter), 938
excessive crying (commentary), 568
infant, cow's milk formula and (letter), 1124
College campus, mumps impact on, 779
Commentaries
Assessing the effectiveness of care for very low birth weight infants—do we really need population-based data?, 912
Colic: Exasperating but fascinating and gratifying, 568
Combined medicine/pediatrics training programs, 181
Congenital cardiovascular defects in infants with Down syndrome, *PIR11:99, 89–90*
Etiology and pathogenesis of intraventricular hemorrhage in newborns, 382
Home visiting: A necessary but not in itself sufficient program component for promoting the health and development of families and children, 178
Injury research: Where should we go from here?, 180
Intraventricular hemorrhage, 913
Literacy and the pediatrician, *PIR11:161, 89–90*
On the relevance of poor judgment, 724
Oral rehydration—Is it really that easy?, *PIR11:5, 89–90*
Pediatrician and school readiness, *PIR11:67, 89–90*
Pediatrician—The Rodney Dangerfield of medicine, *PIR11:69, 89–90*
Pediatric rheumatology manpower and training: Planning for the 1990s, 567
Reader's comments and questions, *PIR11:1, 89–90*
Respiratory distress syndrome and intracranial hemorrhage: Cause or association? Inferences from surfactant clinical trials, 915
Slowing down, *PIR11:131, 89–90*
Status of varicella vaccine for healthy children, 1097
Sunburns, melanoma, and the pediatrician, 381
Williams syndrome, 923
Congenital abnormalities, midline defect, 266
Constipation, Hirschsprung disease, *PIR11:108 (abs), 89–90*
Controlled trials, unpublished, 374
Coronary artery disease, family history evaluation and, 365
Corticosteroids, chronic lung disease, neonate, 1072

Courtroom evidence, child sexual abuse, 1022
Crigler-Najjar syndrome
jaundice in infancy, *PIR11:79, 89–90*
tin-protoporphyrin in management, 729
Croup, treatment (letter), 941
Crying, behavior, feeding and temperament, 514
Curriculum, internal medicine/pediatric residency training, 94
Cyclophosphamide, linear growth, nephrotic syndrome and, 495
Cystic fibrosis, diabetic microangiopathy with, 642
Cystinuria, *PIR11:21, 89–90*
Cystitis, febrile infant, *PIR11:71, 89–90*
Cytomegalovirus
international adoption and (letter), 937
retinitis, infant with AIDS, 683

Day care, versus home care, risk of injury, 1011
Dehydration, infancy, *PIR11:139, 89–90*
Demography, emergency medicine, 336
Depression, attention deficit disorder and (letter), 748
Detergent, ingestion, serious respiratory consequences of, 472
Development
children as pedestrians, parental attitudes and practices, 1017
infant, mother-infant attachment and, 248
monitoring, British and American recommendations, 1000
motor, 45,X and 47,XXX girls, 678
neurologic, chronic renal disease and, 68
psychomotor, iron deficiency effects, infant, 7
Developmental field, midline defect, 266
Diabetes mellitus
congenital, birth defects and human teratogens, 658
microangiopathy, cystic fibrosis with, 642
pediatric training and, 138
Diabetic ketoacidosis, dehydration in infancy, *PIR11:139, 89–90*
Diagnosis-related groups, neonates, revision of, 49
Diarrhea
acute, *PIR11:6, 89–90*
enteric adenovirus infection and, 219
immunocompromised host, *PIR11:4 (abs), 89–90*
persistent postenteritis, lactose feeding during, 835
Diet
behavior, eating attitudes and, 482
vegetarian, growth and, 475
Diphtheria-tetanus-pertussis, inoculation, optimum needle length for, infant, 136
Disability
adolescents, prevalence, severity, and access to health services, 872
family adjustment to, children with limb deficiencies, 323
Dose-response, methylphenidate effects, overt behavior in hyperactivity, 648

Training programs, combined medicine/pediatrics (commentary), 181
Transfusion therapy, hematocrit, clinical signs, and erythropoietin levels, premature infant, 412
Transplantation
liver, *PIR11:57, 89–90*
organ donor maintenance, 688
Trauma
see also Injury
anogenital, sexual abuse, 317
interhospital transport, 43
medication dosages during emergencies, 731
Tuberculosis, Houston, Texas, 28
Twins, sudden infant death syndrome in, 1038

Ultrasound, screening, renal abnormalities, schoolchildren, 1086
Urinary tract
abnormalities, supernumerary nipples and, *PIR11:145 (abs), 89–90*
infection, *PIR11:71, 89–90*
Urology, annual meeting, 183

Vaccine
acellular pertussis, booster dose, adverse reactions, 62
conjugate, *Haemophilus influenzae* type b (committee statement), 386
Haemophilus influenzae type b
immunization, sickle cell disease and, 509
immunogenicity of, 995
polysaccharide, 255
varicella, immune response and, 418
varicella (commentary), 1097
Varicella
maternal, *PIR11:152 (abs), 89–90*
vaccine (commentary), 1097
clinical reinfections after, humoral immunity and, 418
Varicella-zoster, clinical reinfections, humoral immunity and, 418
Ventilation, mechanical, tracheobronchial histologic alterations during, 304
Vesicoureteral reflux, urinary tract infections, *PIR11:71, 89–90*
Vision, retinopathy of prematurity, 442
Vital statistics, annual summary—1988, 943
Vitamin A, intoxication, *PIR11:126 (abs), 89–90*
Vitamin D, hypophosphatemic rickets, 276
Vitamin K
maternal administration, coagulation profile and, preterm infants, 1045
status, milk intake and vitamin K supplement relations, newborn, 90
Vocal cords, paralysis, neonatal, following extracorporeal membrane oxygenation, 793
Vomiting, chemotherapy patients, 103
Vulnerable child syndrome, jaundice, terminating breast-feeding and, 773

Water, metabolism, infancy, *PIR11:153, 89–90*

Weight
body
diet behavior and eating attitudes, 482
vegetarian diet and, 475
genetic and environmental determinants, Mexican-Americans, 865

Well-child care, developmental monitoring, British and American recommendations, 1000
Williams syndrome
contractures in, 895
multisystem disorder (commentary), 923

Wounds, puncture, needle injuries among physicians, 211

45,X and 47,XXX, motor development, 678
